Body and Cover	Manufacturer's Standard																																																				
Stem	Manufacturer's Standard																																																				
Seat	Manufacturer's Standard																																																				
Spring	Manufacturer's Standard																																																				
Size	150mmØ																																																				
Coating	Epoxy																																																				
End Connection	Flange Type - ANSI																																																				
Diaphragm	Flat – Buna-N																																																				
Tubing Size	Manufacturer's Standard																																																				
Body	Manufacturer's Standard																																																				
Internal Component	Manufacturer's Standard																																																				
Fittings	Manufacturer's Standard																																																				
Pilot Pressure Adjustment Range:	20-80 psi (for PSV only)																																																				
Body and Cover	Manufacturer's Standard <b>or its equivalent</b>																																																				
Stem	Manufacturer's Standard <b>or its equivalent</b>																																																				
Seat	Manufacturer's Standard <b>or its equivalent</b>																																																				
Spring	Manufacturer's Standard <b>or its equivalent</b>																																																				
Size	150mmØ																																																				
Coating	Epoxy																																																				
End Connection	Flange Type – ANSI/ <b>ISO</b>																																																				
Diaphragm	<b>Manufacturer's Standard or its equivalent</b>																																																				
Tubing Size	Manufacturer's Standard <b>or its equivalent</b>																																																				
Body	Manufacturer's Standard <b>or its equivalent</b>																																																				
Internal Component	Manufacturer's Standard <b>or its equivalent</b>																																																				
Fittings	Manufacturer's Standard <b>or its equivalent</b>																																																				
Pilot Pressure Adjustment Range:	20-80 psi (for PSV only)																																																				

For guidance and information of all concerned.
